Flying-foxes, or fruit bats, are essential for our Australian forest health, through distance pollination and seed dispersal they are true forest makers. While everyone sleeps, flying-foxes make forests!

Bats around the world and in Australia are in decline, mostly due to loss of foraging habitat, loss of safe roosts and a poor understanding of their worth.

THIS SEASON'S DATES:

October 24th 2010

November 21st 2010

December 5th 2010
