

TABLE 2B - KBCB-WPSQ - Common name of bird species found at given coded location for birds observed in ten walks over 2015 (C & B Order)

A '1' in the column indicates at least one bird of the species named for that row was observed at the coded location indicated. See Table 1 for location details for the code representing that particular walk. Seq is the sequence number for the bird from original order of Christidis & Boyles Order list. Number of different species observed at least once over 2015 was 109.
